

## Berkshire Bank Simplifies Compliance Reporting with WideSky

**64.29%**  
time saved in compliance reporting & invoice management

Discover how WideSky revolutionized invoice processing and compliance reporting for a leading financial institution, delivering unprecedented efficiency gains and operational excellence.

### The Challenge: Manual Processing

Members of Berkshire Bank's facilities division faced a time-intensive process when preparing annual compliance reports across multiple properties. Each report required pulling invoices from various systems and entering data manually into spreadsheets.

Properties Covered:	4
Pulling Data:	7 minutes per property (28 minutes total)
Data Entry:	7 minutes per property (28 minutes total)
Total Time Before WideSky:	56 minutes

### The Solution: WideSky Implementation

WideSky's comprehensive platform transformed Berkshire Bank's compliance reporting by automating data collection and centralizing information within a single dashboard. The streamlined process reduced reporting time by 64.29% across four properties.

#### Automated Data Extraction

Consolidates all property information into one secure, centralized view.

#### Streamlined Reporting

Generate ready-to-use compliance reports in seconds.

#### Customizable Data Outputs

Tailor report formats to meet internal and regulatory needs with ease.

*"What previously took nearly an hour across four properties now takes just 20 minutes. WideSky has made compliance reporting fast, consistent, and stress-free."*
